

US Serial No. 10/691,105
Page 2 of 7

Amendments to the Specification:

Please replace paragraph [0023] with the following rewritten paragraph:

As also shown schematically at Figure 2, the upper fascia support member 12 attaches to the vehicle sheet metal structure 22 and provides support and precise attachment locations 24 of (ie., setting the gap with regard to) various attached parts, as for example hood over-slam bumper pads attachment locations 24a, head light attachment locations 24b 24bs, front grill attachment locations 24c and radiator bracket attachment locations 24d. When placed at the front end of the motor vehicle (as shown at Figure 2), the upper fascia support member integrates the attachment locations 24 so as to achieve a good fit with respect to the hood, fenders and grille.
